

Hi there

Thank you for your enquiry regarding our Accelerated Freefall (AFF) courses abroad for the complete beginner.

With the potential for unreliable weather, it can save you time and money to do your course abroad. You can choose from many European and USA dropzones, having a great holiday as well as learning to skydive! All our packages are fully inclusive of the cost of your local transport, accommodation, training, equipment and third party insurance. With UK Skydiving you get 5 star treatment all the way. Accommodation is typically B&B or self catering apartments. Training and equipment - we provide it all. Once qualified its time to celebrate! Packages for non-jumpers (ie. friends and families) are available and our chosen venues for training have many local attractions. **We're here to help, so if you want more information please don't hesitate to get in touch.**

So why book your skydive with us?

We are professional skydivers and are always here to answer your questions and give you honest and accurate advice from 8:30am – 6pm 7 days a week 360 days a year.

If you are quoted a better price elsewhere we will probably match it and throw in a free t-shirt*.

Your attention is drawn to the guidance notes to help you book your jump.

AFF COURSE

The Accelerated Freefall (AFF) course is a progressive fast track skydiver training programme, which takes you from complete beginner to Category 8 qualified skydiver in 8 jumps. Your course starts with a day of ground training with your AFF instructor on equipment, aircraft exit, freefall, in air training signals and parachute control.

On Level 1 of the course you are assisted by two AFF instructors who stabilize you and train you with in air signals until you are freefalling with more confidence. By Level 5 you are jumping with one instructor. Level 8 is your first solo exit from the aircraft. This course is fairly intensive and you will need to be committed and determined. Levels 1 to 7 are from 12 000 feet and Level 8 is from 5 000 feet. T

This course is fairly intensive and you will need to be committed and determined. **You can purchase this course level by level or as the complete course.** Questions? We're here to help, so please don't hesitate to get in touch.

TYPICAL JUMP ALTITUDES ABROAD

Texel/Holland	-	13,000 – 15,000ft
California/USA	-	13,000 – 14,000ft
Seville/Spain	-	14,000 – 15,000ft

The Full Accelerated Freefall Course

TRAINING The first day of the course is dedicated to ground school; which consists of a 6 hour training session, split between theory and practical.

Level 1. Your first jump is with two instructors and is designed to teach you the basics; exits, stability, altitude awareness and control of the parachute canopy. Three practice ripcord pulls, altitude awareness and the actual pull, are all part of this jump. The instructors hold on to you throughout the freefall portion of this jump. Radio assistance is given under canopy during the descent and landing if necessary.

Level 2. As level 1 but with only 2 practice pulls and a turn to the left and right.

Level 3. Instructors 'release' you, allowing you to fly alone, but staying in close proximity to re-grip and provide assistance if necessary.

Level 4. Exiting with just one instructor holding on exit, 180 degree left turn and 180 right and forward movement.

Level 5. One instructor holds you on exit, 360 left turn, 360 right and forward movement.

Level 6. Dive exit with instructor following. Back loop, delta track, 360 turn and delta track.

Level 7. Dive exit instructor following. Back loop, delta track, 360 turn left, 360 right.

Level 8. Solo exit from 5,000 feet, followed by deployment of your canopy within a few seconds. This familiarizes you with a lower exit altitude and a faster pull.

On completion of your AFF, you will need to complete 10 consolidation jumps, and on your return to the UK you will need to convert your USPA membership to UK membership

Includes all equipment hire and aircraft slots. Re-jumps are not included but are not charged at full price.

Consolidation jumps including kit hire are around £34 each.

Once qualified, jumps are from £13 (USA) £16 (Europe) £12 (UK) each plus kit hire.

WHAT'S INCLUDED?

10 Day AFF Course Package to Spain (Madrid or Seville) and USA (California) with Andrew Lovemore

The course package includes the following:

1. Read the info
2. Use the dropzone / Tariff listing to choose your destination.
3. Either book on-line, call on 0845 3301676 or complete and send us the booking form and deposit.
4. We will send you confirmation and direction

A £150 deposit secures your course

VENUE	DATES	10 DAYS	14 DAYS
Texel Holland	April to September	£1649	£1749
Spain – Seville	All year round	£1549	£1649
USA – California	Feb, Mar, Oct, Nov	£1649	£1749

Texel – Holland

Flights are to Amsterdam where you can delay your journey if you fancy a day and night in Amsterdam. Texel is a small island set off the North Coast of Holland. Surrounded by beautiful sandy beaches, stunning scenery and plenty to do around the island for non-jumpers and days off. The dropzone has a fund and friendly atmosphere and is located in the centre of the island. Accommodation is in a local B&B with restaurant and bar.

Seville - Spain

The dropzone is located in Bolious, approximately 35 minutes drive from Seville. Accommodation is either dropzone bunkhouse or local apartments. There are local shopping outlets and supermarkets. Seville has lots to offer, however transport is a must for non-jumpers. Transport to and from your accommodation is provided, including airport pick-up and drop-off.

Lake Elsinore - California

The dropzone is about 1.5 hours drive East of LAX and located in Lake Elsinore. Great scenery and plenty to do for non-jumper or days off. Great value shopping, eating and drinking. Transport is a must for non-jumpers. Transport to and from your accommodation is provided, including airport pick-up and drop-off.

Terms and Conditions

It is the person paying for the skydive that is required to sign the terms and conditions. If this person is not the skydiver then they have the responsibility to ensure that the skydiver is aware of all points laid out in the terms and conditions. Particularly those points pertaining to the skydivers suitability and fitness to jump, and the forbidding of the consumption of alcohol on the day of the jump.

Booking Form

In order to book your skydive complete the details on the booking form, sign the terms and conditions and enclose deposit, send it to: **UK Skydiving LTD, Globe House, Love Lane, Cirencester, Glos, GL7 1YG**. Once received we will send you confirmation, directions and details specific to your chosen Drop zone.

Organising a Group

If you are organising a group all our correspondence will be via yourself, but we will happily speak to any individuals if they wish to discuss something in person. For groups of 5 or more contact us for a discount.

FAQ's Restrictions and Exclusions

Age – Minimum age 16 (16 and 17 years with written consent from parent or guardian). Those over 60 will not usually be accepted for AFF courses abroad. However, all persons over the age of 50 will be assessed individually by an instructor before acceptance onto any course. The weight limit is 96 kilos or 15 stones.

Fitness and Health - A fair level of fitness is required for AFF and this will be assessed by an instructor before acceptance onto any course.

Weather - Skydiving is weather dependant! Cloud – Good visibility and broken cloud is required for all forms of skydiving, and the cloud base should be no lower than your parachute deployment altitude. Wind – The maximum ground speed for AFF is 15kts. Your instructor will keep you jumping wherever possible, however, some down-time is inevitable, even abroad.

Disabilities - If you are disabled this does not mean you cannot skydive. Contact us for more details.

Insurance - On registration at the club on the day of your skydive you will automatically be covered by 3rd party insurance, if you would like to take further personal injury cover please contact Extreme + and quote UK Skydiving as your “where did you hear about us”

Safety - All our chosen clubs are regulated by the BPA British Parachute Association or USPA United States Parachute Association, to ensure that equipment and training is of the highest standards. All Student and Tandem skydivers wear a dual parachute system, where if the main parachute should fail there is a reserve parachute, which is easily deployed. Student and Tandem equipment are also fitted with an automatic reserve parachute-opening device (Cypres) this is in case of extreme emergency and this device is governed by speed and altitude.

Glasses and Contacts - Our goggles fit comfortably over your glasses, and contact lenses are no problem

Breathing in freefall - On exiting the aircraft you may gasp for breath for a second but will soon find yourself breathing normally.

How fast will I fall? - This varies, but you can expect to be falling around 120mph during freefall.

What should I wear? - If it's a cold day wrap up warm not bulky as you will be provided with a jumpsuit to wear over your clothes. On a hot day a t-shirt and trousers/shorts are ample. Trainers are recommended, do not wear any open toed shoes ie sandals. **We're here to help, so if you want more information please don't hesitate to get in touch.**

Globe House, Love Lane, Cirencester, Glos, GL7 1YG Tel: 0800 1116 880

In order to book your skydive complete the details on the booking form, sign the terms and conditions and enclose payment, gift voucher or credit card details. Once received we will send you confirmation, directions and details specific to your chosen Drop zone.
